

# AAAM Student Research Symposium

Student Symposium Preceding AAAM's 63rd Annual Conference

15 October 2019

Comillas Pontifical University | Madrid, Spain

The goal of the Student Research Symposium is to give students early in their careers the opportunity to present talks on work in progress to an experienced research audience composed of AAAM members and conference attendees from diverse disciplines. The symposium seeks presentations on works in progress, methods papers, and smaller studies. Abstracts are sought in all areas of traffic-related injury prevention and control including automotive medicine, behavioral research science, biomechanics, engineering, epidemiology, statistics, education, law, and public policy. We strongly encourage students to continue to submit completed studies of a scope equivalent to a peer-reviewed journal publication for consideration for presentation at the main conference.

**TRAVEL STIPENDS** | The presenter of all abstracts selected for presentation at the Student Symposium will have the registration fee to the main conference waived and will receive a travel stipend of up to \$1300 USD to attend the conference.

## **DEADLINES TO BE OBSERVED**

<b>12 April 2019</b>	Abstract submissions are due by 5:00 pm EST. Use the template provided on the <a href="http://aaam.org">aaam.org</a> website to be considered.
<b>8 May 2019</b>	Authors will be notified of the status of their submissions via email
<b>15 October 2019</b>	AAAM Student Research Symposium held in Madrid, Spain.

To submit your abstract, send PDF to [info@aaam.org](mailto:info@aaam.org) by 12 April 2019. See guidelines for abstract and access the abstract template at:

**ABOUT THE AAAM.** The Association for the Advancement of Automotive Medicine (AAAM) is a scientific professional organization devoted entirely to traffic-related injury control. Its multidisciplinary membership represents such diverse backgrounds as medicine, behavioral research, biomechanics, engineering, epidemiology, statistics, education, law, and public policy, and combines clinical, research, academic and administrative backgrounds. The AAAM Scientific Program Committee (SPC) invites abstracts of prospective presentations for the 2019 AAAM Student Research Symposium.
